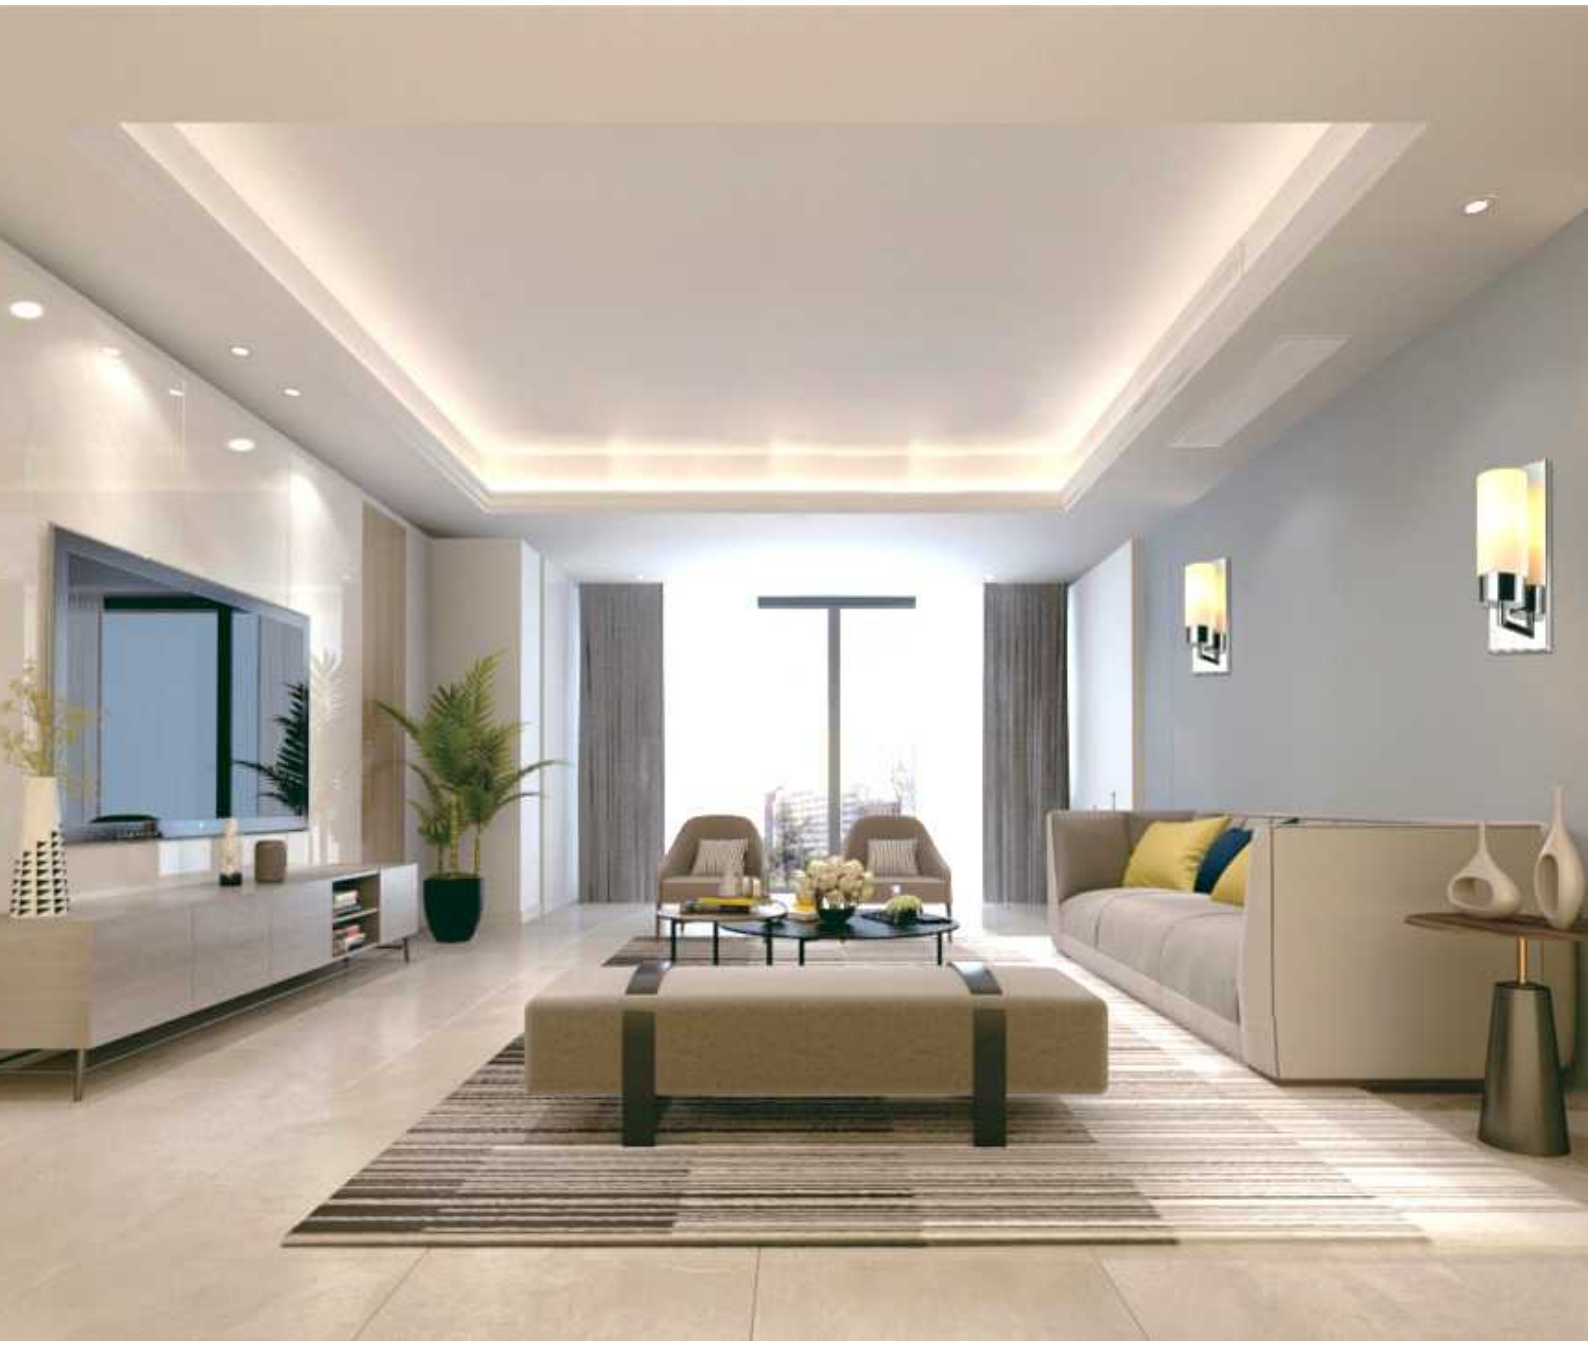
ELWA®



PROJECT LIGHTING CATALOGUE

Company Overview

ELWA, established in South Australia in 2008, is a family owned company specialising in the design, manufacture and installation of contemporary and innovative energy efficient LED lighting systems.

The ELWA Head Office in South Australia is a continuation of the company founded in The Netherlands in 1990, with offices and agents supporting distribution and projects all over the Asia-Pacific region from the Adelaide office and in Europe, America and Africa from The Netherlands.

Company founder, Jan Antonides, designed and produced our first instant electric hot water system in 1988 in Germany. ELWA have since expanded to maintain production facilities in Germany, Australia and China with central offices in Adelaide, Amsterdam and Guangzhou.

ELWA were an early adopter of LED technology and have implemented hundreds of energy and cost saving LED upgrades for public, industrial, retail and residential sectors including schools, hotels, factories, high-rise apartments, car parks, public buildings and warehouses since 2009.

ELWA has proven to be a reliable partner through participating in getting the best solution for every project. Evident in our comparison guides and results from past upgrades, ELWA is a leading catalyst in providing reliable, cost and energy saving solutions for all LED lighting upgrades.

NOTE: Our catalogues only display previously designed and manufactured products. If there is a specific design or product that you cannot see in our catalogue, let us know as we are more than happy to produce more than what is shown in order to meet our client's needs. Our decorative lighting package (displayed from page 5 to 330) is only manufactured to order in bulk quantities. Our general lighting package (from page 331 onwards) is usually held in stock in our warehouse.
Visit www.elwa.com.au or contact us at sales@elwa.com.au for more information.

Why Use LED Lights?

Cost Effective

LED lights consume a considerable amount less energy than traditional light sources. When making an upgrade from fluorescent lighting, these savings are from 50 – 65% in running costs.

Longer Life

The life of LED lights is between 4 and 40 times greater than traditional light sources, making maintenance costs considerably less over the life time.

Reduced Carbon Emissions

LED converts up to 80% of energy into light. This efficiency means reduced energy costs and reduced carbon emissions.

Low Heat Emissions

Due to the minimal heat emissions produced by LED lighting, savings in operations of secondary interior systems such as air conditioning are imminent.

Durability

LED lights do not contain a filament that can be damaged by shock or vibration. This makes LED lighting a strong and robust product.

DL207 Series

CL67 Series

TROFFERS, PANELS & BATTENS

Creating contrasts between display areas, work stations and walkways creates atmosphere. Throwing light onto walls and focal points makes rooms feel larger and brighter.

Our diverse range of lighting options allows you to maximise efficiency, control glare and create focus in offices and retail spaces.

Low Glare LED flat panels for recessed or surface mounting

Troffer LED fittings

Surface mounted slim-line battens

FLOOD LIGHTS

Floodlights range from 10 watts to 150 watts.

These are broad-beamed and high intensity.

EL-FLHP150W

STREETLIGHTS

EL-160WiL

EL-SBFL50W

EL-75WiT

Streetlights range from 50 watts to 150 watts.

There are approximately 2.3 million street lighting lamps in service in Australia. The annual energy cost of public lighting in Australia exceeds $125 million. Street lighting is the single largest source of carbon emissions from local governments, accounting for 30–60% of their total emissions.

Elwa have a range of exterior LED lighting options for street lighting, walkways and public areas that offer great energy and efficiency advantages over traditional lighting.

HIGH BAY LIGHTS

Ideal for warehouses, factories & carparks.

High bay HB01 100-240Watt

High bay HiCloud 300W

HOTELS & APARTMENTS

Hotels & apartments will benefit from our range of elegant eye-catching ceiling fixtures and functional downlights. Accent lighting draws attention to objects and other elements. Decorative lights provide direct visual appeal.

The use of warm colours and/or dimmable options for foyers and apartments creates a homely feel. Diffused natural lighting is perfect for office environments

DL52 series surface mounted round ceiling light

AL24 series surface mounts

AL08 series Oyster

Al12 series square

AL02 series Oyster banded

DL51 series square

DL49 series deep rounded square

LED Flat Panels mounted or recessed

Twelve sizes 300 x 300mm up to 598 x 1198 – Other sizes made to order. 2W- up to 72W in warm white, normal white, cool white or daylight.

LED Tubes

LED CORN LIGHTS

Sizes: 40mm, 25mm, 120mm diameter – 10Watt up to 180Watt
Colours: warm white, natural white, cool white, day light.

BLT & BLS BATTENS

CL-BLT series slime line LED batten.
Colours: 4000K, 5000K, 6000K changeable.
Changeable wattage – 10W, 20W, 40W.

CL-BLS series slime line LED batten.
Colours: 4000K, 5000K, 6000K changeable.
Changeable wattage – 20W, 40W, 60W.

Product Features:

- Energy saving LED lighting source BOKE Driver Free-flicker 100lm/w
- Anti-glare design
- No UV, no infrared, no hazardous components used
- No noise, no flicker
- Vibration resistant;
- 3 Hours emergency back-up option
- Microwave/Motion sensor optional
- Can dim when area is unattended - adjustable range (1-8m)
- SAA approved
- Three year warranty

CL BATTENS

Twin LED strip weatherproof battens.
Colours: 4000K, 5000K, 6000K changeable.
Changeable wattage – 20W, 36W, 50W.

CL218D

Single LED strip weatherproof battens.
Colour: 4000K, 5000K, 6000K changeable.
Changeable wattage – 20W & 25W.

CANOPY LIGHTS

Product Features:

- Designed specifically for commercial buildings such as petrol stations, warehouses, offices and churches.
- Wattage: 75W to 150W
- Can replace up to 480W traditional luminaire.
- Lifespan > 50,000 hours.

BULKHEAD LIGHTS

Round LED bulkhead lights.
Colour: 4000K, 5000K, 6000K changeable.
Variable wattage – 20W & 40W.

Oval LED bulkhead lights.
Colour: 4000K, 5000K, 6000K changeable.
Variable wattage – 20W & 40W.

WALL PACKS

Semi cut-off LED wall light.
Variable wattage – 40W , 60W, 90W & 120W.
Daylight sensor option.
Colour: warm white, neutral white, cold white
CCT: 4000K, 5000K, 5700K
Lifespan: >54,000 hours

EL-WP40-XXK-YZ

Similar to flood lights, these are used for broad beamed, high intensity lighting for large areas; such as warehouses, doorways, parking lots and walkways.

STRIP LIGHTING

Perfect for backlighting, accent lighting, stair lighting and more. This is an easy and effective way of achieving a statement appearance.
